

Year 2018-2019

7.2 Best Practices		
Title of Best Practice	Clean the Unclean.	2. Library of the College
Goal of the practice:	Cleanness should be maintained by every aspect of our surroundings Research is Important for higher education.	We provide knowledge to someone through books that remains forever and utilized for being good,
Objectives:	<ul style="list-style-type: none"> To promote the benefits of cleanliness to our Surrounding and health To inculcate a healthy environment To Promote Research Culture 	<p>To Provide books the needy student .</p> <p>To Make them understand the Value of education.</p>
The Practice	<ul style="list-style-type: none"> Our College campus located on Alibag -Pen Road. Students from our college are cleaning the entire College campus, Historical Monument (Rajdhani-Raigad) and bus-stand and Ganesh Ghat of nearby area through N.S.S. Student campaign. Our College Teachers developed Research culture in this year. Total 28 papers published all of them. 04 International Level, 07 National Level, 03 State Level and 14 University Level conference proceeding. 	<p>A library is a collection of materials, books or media that are easily accessible for use and not just for display purposes. It is responsible for housing updated information in order to meet the user's needs on a daily basis. A Library provides physical (hard copies documents) or digital access (soft copies) materials, and may be a physical location or a virtual space, or both. A library's collection can include printed materials and other physical resources in many formats such as DVDs, CDs and Cassette as well as access to information, music or other content held on bibliographic databases. A library, which may vary widely in size, may be organized for use and maintained by a public body such as a government, an institution/ schools, a corporation, or a private individual. In addition to providing materials, libraries also provide the services of librarians who are trained and experts at finding, selecting, circulating and organizing information and at interpreting information needs, navigating and analyzing very large amounts of information with a variety of resources. Hence, librarians go an extra mile to meet the user's need by ensuring that their users are satisfied with the information provided. A Librarian is one person who is expected to be very vibrant and innovative especially in this digital world Library buildings often provide quiet and conducive areas for studying, as well as common areas for group study and collaboration, and may provide public facilities for access to their electronic resources for instance Computers and Desktop and access to the Internet. The library's clientele and therefore the services offered vary depending on its type: users of a public library have different needs from those of a special library, for example. Libraries may also be community hubs, where grams are delivered and people engage in lifelong learning Modern libraries extend their services beyond the physical walls of a building by providing material accessible by electronic means, including from home via the Internet. Hence managing information in an information world has become very easy simply because information can be provided or being accessed virtually by people who are in remote areas and other places away from the Library. The services the library offers are variously described as library services, information services, or the combination "library and information services, although different institutions and sources define such terminology differently.</p> <p>We have found that there were no adequate sources of books for the students of college over there to enhance the knowledge of the students.</p>
Evidence of Success:	<ul style="list-style-type: none"> Students who were involved in this Cleaning Campaign were felicitated by Grampanchayat. It was really a good feeling for the villagers to see their environment and surroundings clean. Teachers were involved and publish Research work. 	Students were very much happy in terms of getting such a worthy need to be satisfied by books
Problems Encountered:	<ul style="list-style-type: none"> It was very difficult for us to make everyone understand the importance of cleanliness in their surroundings Limitation of local language medium journals.. 	More books were demanded but only limited books were made available as the funding
